

Stop Mineola's Plan to Cut Down at least Eight Sycamore Trees on Roslyn Road!

We the undersigned demand that the Village of Mineola halt its secretive plan to destroy at least eight massive, landmark-quality **Sycamore trees** (aka London Plane trees) on **Roslyn Road** between **Jerome** and **Jefferson** Avenues (and possibly beyond).

These huge, beautiful trees are **healthy** – as attested to, we have been assured, by certified arborist Richard Oberlander – and they are **treasures** of our neighborhood.

If the Village of Mineola has any scientific argument for wanting to destroy these wonderful trees, which provide **habitat** for animals, oxygen, shade, healthy soil and beauty, we demand that Mineola hold at least three **public hearings** to present its evidence and allow the public and experts to evaluate and present their own.
